Swedish for Engineers and Technicians, SFIT

Do you have an academic education from another country as an engineer or technician? Do you want to combine your Swedish studies with a vocational orientation and rapidly get ready for employment?

We have an education for you! Sfi Lund offers intensive studies in Swedish for immigrants, Sfi, in the center of Lund. Principal and responsible for Sfi Lund is Folkhögskolan Hvilan in collaboration with Folkuniversitetet.

SFIT is for you who have

- a foreign academic education in the field of engineering or technology (eg. civil engineer, software or system developer, building technician)
- the time and motivation to study 25 class hours a week

SFIT offers

- Sfi 3, course C and D – intensive studies at a fast pace
- Start on the study level that fits you the best – individual planning · Authentic texts and exercises for vocational Swedish
- Professional portfolio · Internship, if necessary
- Project-oriented way of working with focus on engineering and technology, external lecturers and study visits
- Valuable contacts in the field of engineering and technology
- Network with people from all over the world with the same educational and professional background

NOTE! It is important that you send your foreign qualifications and grades to the University and College Council, Universitets- och högskolerådet, for a valuation of your degree.

Student finances

The education is free of charge. All literature can be borrowed at the school. Sfi students are not entitled to student loans or student aid. Note! It is important that you send your foreign qualifications and grades to the University and College Council for a valuation of your degree. This can simplify the process of applying for a job in Sweden.

Adress: Skomakaregatan 8, Lund

How to apply?

For application and more information about the course please visit our website, www.yrkessfiskane.se
