Interactive conference and exhibition in Göttingen

On 14-15 June 2023, REVEAL15 event brought together 10 European projects and local communities to join an active conference and exhibition format. The COOL project exhibition concept was used to present projects and products in different thematic areas such as culture, social development and informal learning. The exhibition was organised in an innovative hybrid (digitally supported) format where participants had the opportunity to experience and try exhibits at their own speed in transnational teams along an active exhibition circuit. The conference also offered a philosophical road trip, collaborative workshops, a concert, Impro Theatre, exhibition tours and many other activities.
